Skills

- **Languages**: C++, JavaScript, C, PHP, Python, Java
- **Frameworks**: HTML and CSS, NodeJS, React, Flask, Django
- **Tools/Platforms**: VSCode, GitHub, PyCharm
- **Database:** MySQL, MongoDB
- **Soft Skills**: Problem-Solving, Team Player, Team Management, Adaptability

Internship

- **SkillCraftTechnology:** September 2025
  Full Stack Intern
  Project Overview:
  - To build and deploy multiple interactive web applications with smooth functionality and responsive design.
  - Developed a landing page, calculator, quiz game, and to-do app; implemented DOM manipulation, dynamic events, validation, and clean component structure for efficient performance.
  - Delivered lightweight, user-friendly applications with improved interactivity, reliability, and maintainability.
  - Tech stacks used: HTML, CSS, Tailwind CSS, JavaScript

Projects

- **Missing Person Identifier using trees and hashing:** June-July 2025
  - Built a high-performance full-stack system for identifying and matching missing person records with optimized search and retrieval.
  - Developed the backend in C++ using hashing and tree-based data structures; implemented efficient storage and lookup algorithms; built a responsive web interface with HTML, Tailwind CSS, JavaScript, and Node.js; and designed the system to manage large datasets with scalable performance.
  - Achieved faster and more accurate record matching, improved system scalability, and demonstrated strong skills in data structures, algorithms, and full-stack development.
  - Tech stacks used: HTML, CSS, JavaScript, Nodejs, C++

- **Weekly Meal Planner:** March-April 2025
  - Created a user-friendly web application that helped users generate a weekly meal plan based on their dietary preferences.
  - Implemented HTML, CSS, and JavaScript to dynamically generate meals for different diet types through an interactive and responsive interface.
  - Delivered a functional, lightweight meal-planner web app that improved meal organization and simplified diet-based planning for users.
  - Tech stacks used: HTML, CSS, JavaScript

- **Real Time Blood Management System:** January-April 2025
  - Conceptualized and implemented a full-stack blood management system that streamlined coordination between donors, recipients, and nearby blood banks through an efficient, user-centric workflow.
  - Integrated features such as Donate Blood, Request Blood, and Locate Nearby Blood Banks; established a secure backend with an admin dashboard and real-time tracking; implemented a responsive UI; and leveraged HTML5, Tailwind CSS, JavaScript, and PHP for scalable and smooth performance.
  - Delivered a reliable platform that accelerated blood donation and request processing, strengthened administrative monitoring, enabled accurate location-based assistance, and enhanced cross-device user experience.
  - Tech stacks used: HTML, Tailwind CSS, JavaScript, PHP, MySQL

CERTIFICATES

- Computational Theory: Language Principle & Finite Automata Theory –Infosys Springboard | August 2025
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM – Infosys Springboard | August 2025
- Build Generative AI Apps and Solutions with No-Code Tools – Udemy | August 2025
- Logic Building, Programming and Data Structures: Learn How to Think, Program and Apply | June-July 2025
- Social Networks – NPTEL IIT Madras | January-April 2025
- TRINETRA - 20 Hours HACKATHON | February 2025
- InnovateX - A 24 hours Hackathon | March 2024
- HackWithVertos 1.0 A 24 Hour Hackathon | February 2024
- C Programming for Beginners - Master the C Language – Udemy | February 2024
- Introduction to ChatGPT - GUVI, IITM Research Park | November 2023
- Responsive Web Design - Free Code Camp certified associate | September 2023
- Python - GUVI, IITM Research Park | August 2023

EXTRACURRICULAR ACTIVITY

- **Aadarsh Home For Orphan Children** | June 2024
  - Actively volunteered with Aadarsh Home for Orphan Children, contributing to community development and social responsibility initiatives.
  - Supported multiple activities including child welfare programs, awareness drives, and organizational assistance.
  - Recognized for being hardworking, disciplined, and proactive during the volunteering period.
  - Developed strong teamwork, communication, and leadership skills through hands-on social service experience.

EDUCATION

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.52** August 2023 - present
- **Narayana Junior College** Hyderabad, Telangana
  Intermediate; **Percentage: 94.6%** April 2021 - March 2023
- **Narayana High School** Hyderabad, Telangana
  Secondary School Certificate; **CGPA: 10** April-March 2021
